---	---	---	---	---

The Boone's Lick Road GeoTrail stretches 150 miles from St. Charles, MO to Franklin, MO. It follows the historic route named after Nathan and Daniel Morgan Boone. Twenty five geocaches have been placed along the original Boone's Lick Road and the secondary routes highlighting important points along the historic route. When you find one of the geocaches, record the Geocache name, GC number, and the code word on your passport. The code word for the cache can be found taped to the underside of the container lid and also in the logbook. Geocachers who find at least 23 of the 25 geocaches and send in their passport with the correct information will receive a trackable Boone's Lick Road GeoCoin.

The first geocacher who finds all 25 geocaches and returns the completed passport with all the correct information will receive a Free, trackable Boone's Lick Road GeoCoin.

Congratulations to Micheal Rogers (Arthur & Trillian) for "First to Find" in 8 hours and 46minutes.

TO CLAIM YOUR GEOCOIN

To receive your GeoCoin, send your completed passport and \$13 to:
 Cost of the GeoCoin is \$10 if picked up in person.

SLAGA BLR-geotrail
 101 W. Argonne Dr., PMB 226
 Kirkwood, MO 63122

Name: _____

Address: _____

City, State and Zip Code: _____
